West Newbury, MA 01985

March 3, 2014

Dear Mr. Greason,

I am pleased to announce the West Newbury Open Space Committee as the official recipient of the SCA 2014 Trail Award! The proposed project on the Riverbend trail network is perfectly aligned with the SCA and AmeriCorps mission: To create the next generation of conservation leaders through hands on service to the land and to improve lives, strengthen communities and foster civic engagement through service and volunteering. Connecting a network of town owned parcels of land to create better public access is valuable work and we are grateful for this opportunity.

We will be in contact with you in the coming weeks to coordinate project planning and financial agreements. We are very much looking forward to working with you this coming summer season!

Sincerely,

*Melissa Patterson*
